**Subject:** RE: 04FGN - RO0000422 - Groundwater Monitoring

ACEH concurs with your proposal to place monitoring on hold until the soil vapor sampling results have been received. At that time, a determination of whether continued groundwater monitoring is necessary can be made.

**Subject:** 04FGN - RO0000422 - Groundwater Monitoring

Barbara,

We have received your letter dated July 24, 2009 stating that groundwater monitoring can be reduced from quarterly to semi-annually; however, per our discussions with you, the site is not currently being monitored on a regular basis. ETIC would like to request that any groundwater monitoring be placed on hold until after the completion of our proposed soil vapor sampling per our work plan dated October 30, 2008, and the addendum dated June 19, 2009.

Please let us know if you concur. Also please feel free to call me if you have any further questions.

Thank you,

--Erik
