Bart Kale called about the ESI letter that was sent out for the Barbary Coast Steel Corporation. He said that Barbary Coast Steel was bought out by Birmingham Steel and they went bankrupt in the 1990s. Nucor bought certain assets from Birmingham Steel in bankruptcy court but not the property where the IKEA is. The State of CA is also listed as an RP. Bart Kale would like to be removed as the RP since he is just a worker at the Nucor and was not an owner of the site.
