Subject: RO0434; Tesoro-Livermore Deep Well Installation Schedule

Jerry,

I know we submitted the IRAP for the Tesoro Livermore site at 1619 1st Street on 21 March but we are trying to move the field work along and install the deep monitoring wells (one on site and three off site) from 13 to 15 May 2008. We should be receiving approval from the downgradient property owners later this week after providing some insurance information. The drillers have been scheduled since they are starting to get really busy and well development is scheduled for 19 to 20 May.

Would you be able to provide approval or comments to the IRAP regarding the proposed deep screens and locations before 13 May 2008 so we can proceed?

I appreciate your help in moving this project forward.

Thank you,

Mike
