Charlotte,

Based upon your request, the schedule for report submittal as referenced below is extended to June 15, 2010.

Regards,

**Jerry Wickham**

**Subject:** RO0439 - 5280 Hopyard Rd., Pleasanton - report submittal 04/23/10

Jerry,

You had requested the Excavation and Soil Vapor Probe Installation Report to be submitted to ACEH by April 23, 2010 that included the excavation, additional site assessment completed in October 2009, well destructions and the replacement vapor probe installation. The excavation has been completed, but we plan to wait until construction is complete to install the probe so that it is not damaged with construction activities. Due to construction delays of the building, it does not appear that we will be able to install the replacement vapor probe prior to the submittal date.

I would like to ask for an extension for the vapor probe installation part only until June 15, 2010. The report will also include sampling of the probe, and re-sampling of the sub-slab probes, indoor and ambient air, and recommendations.

Please let me know if you need any additional information.

Thank you.
