Entry Type: Phone call
Start: Tue 9/29/2009 4:27 PM
End: Tue 9/29/2009 4:27 PM
Duration: 0 hours

Phone call with Charlotte Evans of CRA. Chevron planning to construct new building at site. CRA planning to collect additional data to help identify source of methane and VOCs. They can go out and do additional work on their own but run risk that I may request additional work before concurring with the proposed building. They can go out to get reconnaissance type data such as utility locations to help prepare plan. I would try to provide comments on work plan within a couple weeks. Charlotte Evans likely to send me a revised proposal or schedule regarding the planned subslab sampling within existing building.
