Subject: G.I. Trucking, San Leandro, STID 1373

Comments: A copy of the preliminary lab results and sample locations for your records. We are running the two hottest soil samples, EX-2 and EX-10 for PNAs, but based upon these numbers I don't think they will be real hot, but then I've been wrong before.

Removed 1-2' of South wall. Well removed 1-2' from east and ~~East~~ 1/4 of north wall. Witness SS from South wall (3) & east wall. Skimming of floaters from surface ~ 10 barrels (500 gal)
