**SUBJECT Notification of Upcoming Soil Boring and Soil Vapor Sampling Activities**  
Former Exxon Service Station 99105  
6301 San Pablo Ave, Oakland, California 94608

Pastor Smith:

At the request of ExxonMobil Environmental Services (EMES), on behalf of Exxon Mobil Corporation, Cardno ERI is notifying you of upcoming soil boring and soil vapor sampling activities at the subject site. As part of the ongoing environmental investigation at the subject site, Cardno ERI will be installing three soil borings (B6 through B8) and three soil vapor wells (SVS1 through SVS3) on your property at the locations shown on the attached map. The soil borings and SVS wells will be installed using hand augers. The work is being directed by the Alameda County Health Care Services Agency, Environmental Health Department (ACEH).

Field work is scheduled to occur June 18 through June 22, 2012. A generalized site map is attached. Specific field activities related to the work include:

- Subsurface clearance to locate and avoid underground utilities.
- Install three soil borings (B6 through B8) for collection of soil and groundwater samples.
- Install three SVS wells (SVS1 through SVS3).
- Collect vapor samples from the SVS wells.

Soil cuttings and rinsate water generated during field activities will be placed in 55-gallon drums and stored at the Former Exxon Service Station site pending characterization and disposal.

The proposed schedule of activities is outlined on the next page. Cardno ERI encourages you or a representative to attend the Project Orientation Meeting, scheduled for Monday, June 11, 2012, at 10:30 A.M., to discuss the work scope and associated logistical and safety issues.

May 31, 2012  
Cardno ERI 2783C.L02 Former Exxon Service Station 99105, Oakland, California

The anticipated schedule of activities is as follows:

Project Orientation Meeting: June 11, 2012 at 10:30 A.M.

Soil boring and SVS well installation: June 18 through 22, 2012 at 8:30 A.M.

Cardno ERI appreciates your cooperation in ensuring that field work occurs safely and efficiently.
