Subject: Fuel Leak Case No. RO0000447 and Geotracker Global ID T0600101608, USPS, 6121 HOLLIS ST, Emeryville CA 94608 – Groundwater Monitoring Requirements

Dear Responsible Party:

The purpose of this correspondence is to inform you of changes to groundwater monitoring requirements for all fuel leak cases in California. The California State Water Resources Control Board (State Water Board) has approved Resolution No. 2009-0042 (*Actions to Improve Administration of the UST Cleanup Fund and UST Cleanup Program*). Resolution No. 2009-0042 states that, "*Regional Water Board and LOP agencies shall reduce quarterly groundwater monitoring requirements to semiannual or less frequent monitoring at all site unless site-specific needs warrant otherwise and shall notify all responsible parties of the new requirements no later than August 1, 2009. If more than semiannual monitoring is required for a case, the responsible party and State Water board shall be notified of the rationale and the notice shall be posted on Geotracker.*"

Upon review of your site, we find the following site-specific conditions apply:

- No additional monitoring than requested by the San Francisco Bay RWQCB is required.

If you have any questions, please call me at (510) 567-6876 or send me an electronic mail message at mark.detterman@acgov.org.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Detterman', with a long horizontal line extending to the right.

Mark E. Detterman, PG, CEG
Hazardous Materials Specialist
