Hi Paresh, as per our telephone conversation this morning, please be assured that we are conducting research into the EBMUD Adeline Street Admin property fuel leak case referred to in your letter to us dated July 28, 2008 (Fuel Leak Case RO0000449).

Your letter was addressed to Eileen Fanelli who was no longer at EBMUD at the time the letter was sent and, consequently, the letter was not read by anyone in our Environmental Compliance Section. We apologize for the discontinuity. We found your letter on the GeoTracker website and we fully intend to investigate any potential soil and/or groundwater contamination at the site.

We have downloaded the historic tank-pull reports for the site from the county website to facilitate our research.

Thank you for your understanding.
