Comments: As we discussed on Tuesday, June 29, 1999, the attached figure shows the locations of proposed soil boring/grab groundwater sampling locations that we moved from the sidewalk to the street, in accordance with the requirements of the City of Oakland for an encroachment permit. The figure does not show the location of proposed soil boring/grab groundwater sampling location GW-4, which is on property owned by Mr. Greg Bloom at 340 38th St. This proposed boring location has not changed from where it was shown in Figure 3 of the May 6, 1999 work plan. Please call me at (510) 596-9628 if you have any questions.
