Entry Type: Phone call
Start: Mon 3/28/2011 2:30 PM
End: Mon 3/28/2011 2:30 PM
Duration: 0 hours

Phone call with Mansour Sepehr. He requested that work be phased so that extent of free product is delineated prior to sampling beneath Red Cross building. Mansour indicated that the building has a vapor barrier. We discussed the possibility of unknown tanks in alley near Red Cross building. I indicated that phasing may be acceptable if first phase is needed to answer some questions re contaminant distribution but indoor air sampling may still be necessary.
