Received a call from Glenn Young (Fugro West). He informed me that the RP has passed away, however the estate is willing to abandon the monitoring wells for case closure. Mr. Young was concerned regarding the GeoTracker requirements since all the work that occurred at the site predates GeoTracker. I agreed that the only the monitoring well destruction report should be uploaded so that we comply with the requirements of claiming the site and uploaded documents after 2005. He said that they would do just that.
