Mark,

Conestoga-Rovers and Associates (CRA) on behalf of Chevron Environmental Management Company (EMC) would like to notify you that CRA will be destroying monitoring wells MW-2 and MW-3 located at 451 Hegenberger Road, Oakland, CA by pressure grouting on Friday, September 14, 2012. These wells are being destroyed due to redevelopment activities. Monitoring well MW-3 is located in close proximity to the diesel underground storage tank that is going to be removed (the property owner is tentatively scheduled to remove on September 18) and MW-2 which is located in the potential excavation area.

Thanks,

Nathan Lee, P.G.
