Subject: Door To Door Well Survey Search Notification; Fuel Leak Case No. RO0000473 and GeoTracker Global ID T0600191157, ARCO, 15101 Freedom Avenue, San Leandro, CA 94578

Dear Messrs. Hosseinvoun, Pazdel, and Khatirine:

Alameda County Environmental Health (ACDEH) staff has reviewed the draft public notification document that was prepared and submitted on your behalf by SOMA Environmental Engineering, Inc. Thank you for submitting the draft notice.

The draft notice was generated for the purpose of locating unknown, privately owned water supply wells within an assumed downgradient groundwater plume extent which was defined using the maximum documented groundwater plume distances as determined by the State Water Board and documented in their *Technical Justification for Groundwater Media-Specific Criteria*, dated April 24, 2012.

### **Public Participation**

In order to identify and notify potentially affected members of the public of the potential for groundwater contamination to affect their well, ACDEH will distribute the attached *Public Notification of Private Well Search Due to A Fuel Leak Case* to addresses in the vicinity as identified on the attached map. The notification requests that well owners or residents identify themselves, and submit any comments, concerns, or questions to ACDEH or your environmental consultant regarding their well and the potential for contamination. ACDEH will consider all comments from the public. ACDEH will provide you with written notification of comments received during the following comment period:

- **April 5, 2017** – Public Comment Period Begins
- **May 7, 2017** – Public Comment Period Ends

### **TECHNICAL COMMENTS**

1. **Identified Wells** – The attached public notification seeks to identify privately owned wells in the vicinity of the site in order determine next steps, if or as, needed. As noted above ACDEH will notify you and your consultant of responses received by ACDEH. ACDEH requests an analysis of identified wells be undertaken to assess next steps, by the date identified below.

### **SUBMITTAL ACKNOWLEDGEMENT STATEMENT**

Please note that ACDEH has updated Attachment 1 with regard to report submittals to ACDEH. ACDEH will now be requiring a Submittal Acknowledgement Statement, replacing the Perjury Statement, as a cover letter signed by the Responsible Party (RP). The language for the Submittal Acknowledgement Statement is as follows:

*I have read and acknowledge the content, recommendations and/or conclusions contained in the attached document or report submitted on my behalf to ACDEH's FTP server and the SWRCB's Geotracker Website.*

Please make this change to your submittals to ACDEH.

### **TECHNICAL REPORT REQUEST**

Please upload technical reports to the ACDEH ftp site (Attention: Mark Detterman), and to the State Water Resources Control Board's Geotracker website, in accordance with the specified file naming convention below, according to the following schedule:

- **July 7, 2017** – Sensitive Receptor Analysis  
File to be named RO473\_MISC\_R\_yyyy-mm-dd

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

Online case files are available for review at the following website: <http://www.acgov.org/aceh/index.htm>.

### Responsible Party(ies) Legal Requirements / Obligations

#### REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

#### ELECTRONIC SUBMITTAL OF REPORTS

Alameda County Department of Environmental Health's (ACDEH) Environmental Cleanup Oversight Programs, Local Oversight Program (LOP) and Site Cleanup Program (SCP) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program File Transfer Protocol (FTP) site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and other data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to SCP sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website ([http://www.waterboards.ca.gov/water\\_issues/programs/ust/electronic\\_submittal/](http://www.waterboards.ca.gov/water_issues/programs/ust/electronic_submittal/)) for more information on these requirements.

#### ACKNOWLEDGEMENT STATEMENT

All work plans, technical reports, or technical documents submitted to ACDEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I have read and acknowledge the content, recommendations and/or conclusions contained in the attached document or report submitted on my behalf to ACDEH's FTP server and the SWRCB's GeoTracker website." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

#### PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6731, 6735, and 7835) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately licensed or certified professional. For your submittal to be considered a valid technical report, you are to present site-specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this case meet this requirement. Additional information is available on the Board of Professional Engineers, Land Surveyors, and Geologists website at: <http://www.bpelsg.ca.gov/laws/index.shtml>.

#### UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, late reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

#### AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.

**Site Name: ARCO**  
**Site Location: 15101 Freedom Avenue, San Leandro, CA 94578**  
**Alameda County Fuel Leak Case RO0000473 and Geotracker Global ID T0600191157**

**Introduction** – The Alameda County Department of Environmental Health (ACDEH) is conducting an assessment to determine the extent of groundwater contamination from a fuel released from a gas station and convenience store located at 15101 Freedom Avenue, San Leandro, CA (see attached map), and to ensure you are not exposed to unacceptable levels if you have a well.

In May 1999, an underground fuel release was discovered at the time of replacement of the old underground petroleum storage tanks at this property. Since this time, significant work has been performed to investigate and cleanup the contamination. The work has shown that most of the fuel contaminant mass remained on the gas station property.

Subsequent follow up subsurface sampling has indicated substantial improvements in contaminant levels beneath the property. Despite the remediation, it appears that gasoline contamination has contaminated shallow groundwater beyond the limits of the gas station, generally towards the southeast.

As part of the work, it is policy to locate persons that may be affected by the release. At the request of the ACDEH, SOMA Environmental Engineering, Inc. (SOMA) began canvassing the neighborhoods to the south, southwest, and southeast of the former station to identify the locations of water wells that could be utilizing groundwater. While the neighborhood is served with municipal water by EBMUD, SOMA discovered many residences in the neighborhood have water wells used for irrigation, or that may be inactive but are still present on the property.

After a substantial effort, SOMA was not able to reach all of the property owners/residents within the canvassing area designated by the ACDEH. Given

this condition, ACDEH requested the distribution of this mailer to attempt to locate any additional wells unknown to SOMA personnel or the ACDEH. We would like to emphasize that it is not our intention to intrude upon your privacy in any way. Our goal is simply to determine the extent of groundwater contamination and to ensure you are not exposed to unacceptable levels even if you are not drinking the water.

We have attached a *Request for Information* for your use. We are asking that everyone who has received this *Request for Information* to fill out and return the flyer. **Please complete sections A and B if you have a water well on your property or only section A if you do not have a well on your property.** Write “unknown” if you don’t know.

The results of this assessment will be used to determine whether the water in your well should be tested for potential fuel compounds. The testing will be free of charge and will be performed at your convenience. You will also receive a copy of the laboratory testing report if you so desire. Please return your responses in the enclosed self-addressed stamped envelope as soon as possible. We welcome any comments you may have.

Information regarding the fuel leak case may be viewed online at the ACDEH website (<http://www.acgov.org/aceh/lop/ust.htm>) or at the State of California Water Resources Control Board’s GeoTracker website (<http://geotracker.swrcb.ca.gov>). If you have any questions, please contact Mark Detterman at the ACDEH at 1131 Harbor Bay Parkway, Alameda, CA 94502, at (510) 567-6876 or [mark.detterman@acgov.org](mailto:mark.detterman@acgov.org), or Mansour Sepehr with SOMA Environmental Engineering, Inc. at (925) 734-6400 or [MSepehr@SomaEnv.com](mailto:MSepehr@SomaEnv.com). Thank you for your cooperation.

**To be included in this survey, please return the Request For information by May 5, 2017.**
