Re: Case No. RO0000477, Chevron 9-1924

Hard Copy to Follow? Yes No

Mr. Wickham,

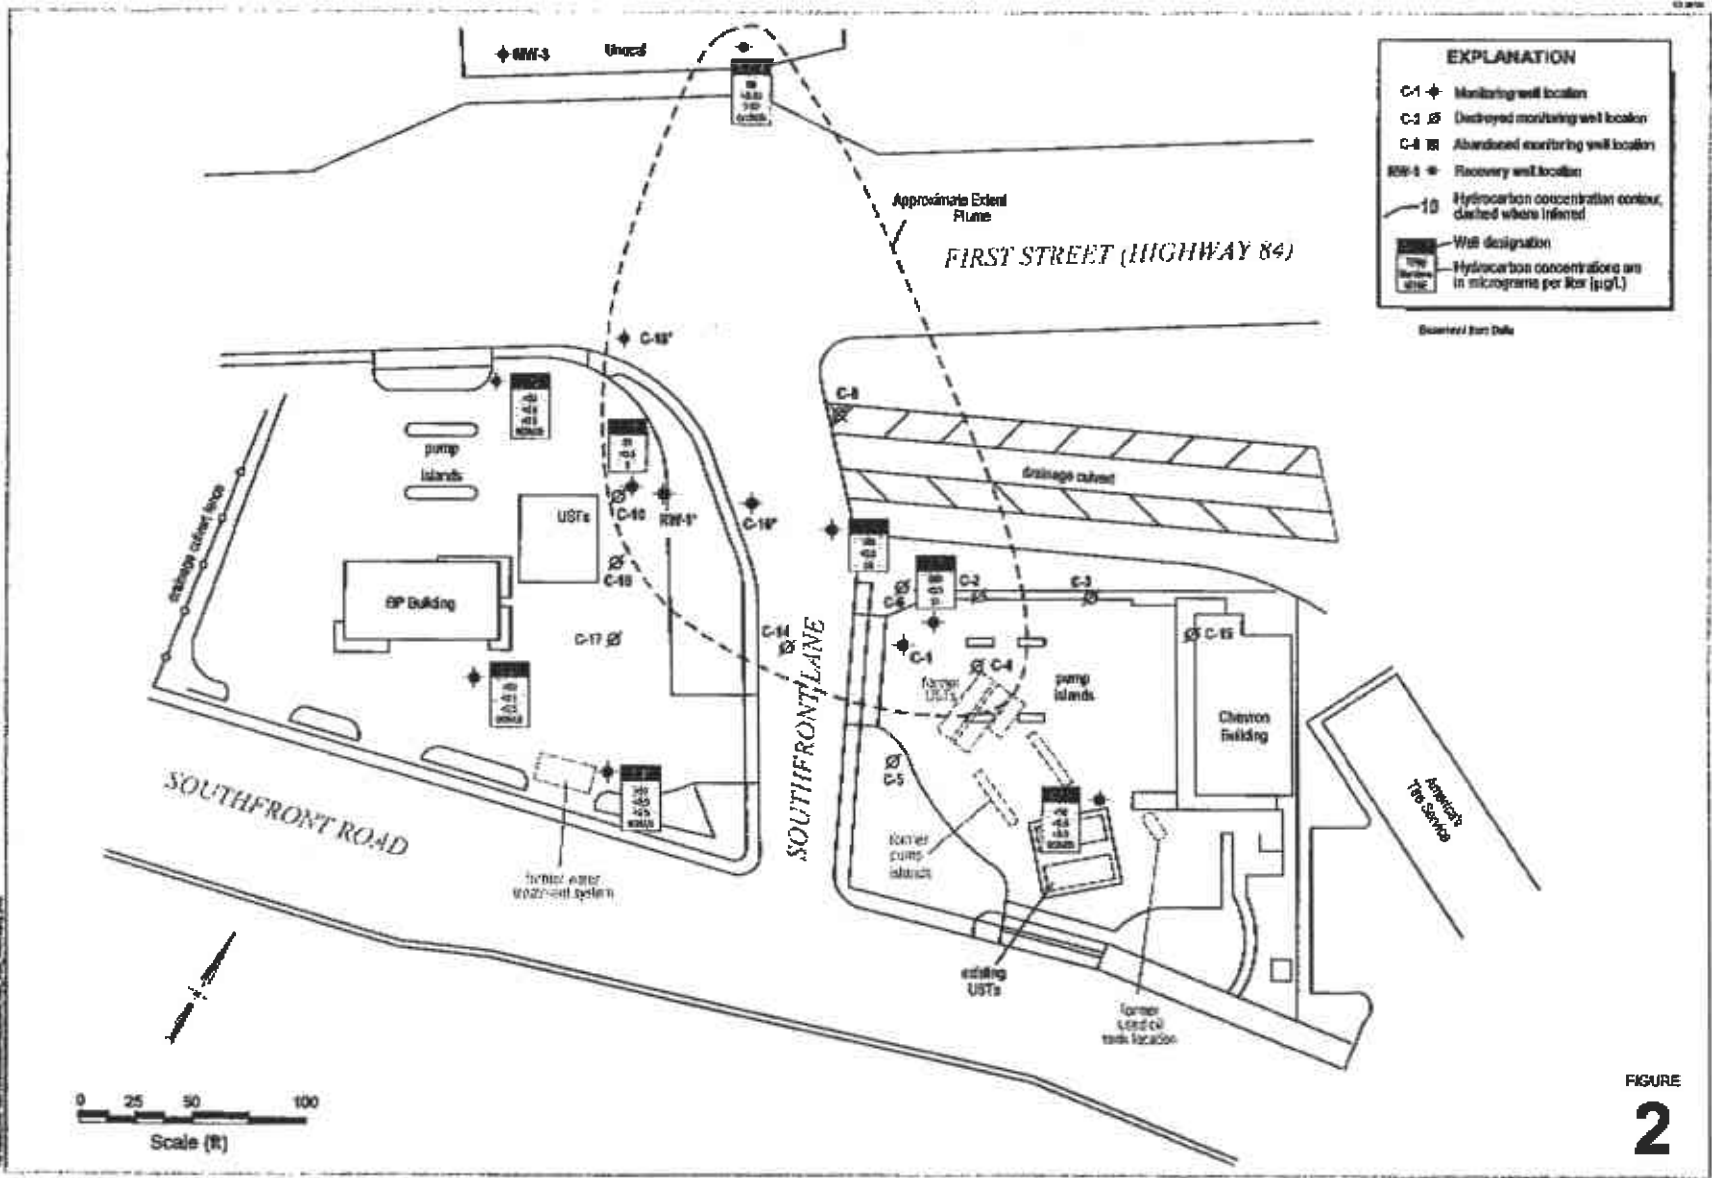

Regarding your request dated January 10, 2006, for additional information for Chevron 9-1924 located at 4904 Southfront Road, Livermore, CA, we are sorry for not providing you with the information by March 9, 2006 as requested. Cambria has updated the Concentration Map as requested (attached), and has received a map from the Zone 7 Water Agency (attached) showing wells located in the vicinity of the site. Zone 7 Identified five water supply wells located approximately 2000 feet from the site. In order to review available Zone 7 well logs, they need a copy of the completed well completion report release that is attached. Even though the attached release form is for the DWR, Zone 7 said it would be sufficient. Please complete and fax back the release form to (916) 677-3687, and we will proceed with the file review as soon as possible. We anticipate providing you with the requested report revision by April 28, 2006.

Again, we are sorry for not providing this information you requested sooner, but we will work diligently to get the revised Response to Comments to you by the end of April.

This fax transmittal is intended solely for use by the person or entity identified above. Any copying or distribution of this document by anyone other than the intended recipient is strictly prohibited. If you are not the intended recipient, please telephone us immediately and return the original transmittal to us at the address listed below.
