Attachments: RO409WP_ADEND_R_2012-08-27.pdf

Peter,

These locations appear to be acceptable. I am attaching a Work Plan Addendum for the Unocal site across MacArthur that includes historic Sanborn maps for the area. You may want to review these locations for historic features.

Regards,
Jerry Wickham

Subject: RO0486-4255 MacArthur Blvd., Oakland - proposed SV probe locations ~COR-240524~

Jerry,

Per our telephone conversation on September 25, 2012, here is a draft figure showing 4 additional proposed nested soil vapor probe locations in the southern portion of the site. If the locations are acceptable, I will submit a short addendum to CRA's May 25, 2012 *Subsurface Investigation Work Plan* formalizing the proposal. We would like to include installing and sampling the additional on-site probes in our upcoming soil vapor investigation at the adjacent off-site properties.

Regards,
