Subject: Review of Fuel Leak Case No. RO0000498 and GeoTracker Global ID T0600101414, Beacon  
Road, 44 Lewelling Blvd., San Lorenzo, CA 94580

Responsible Parties:

Alameda County Environmental Health (ACEH) staff is reviewing the leaking fuel case referenced above for potential case closure. During review of the case file, we did not find documentation indicating that all responsible parties had received all required notifications regarding the fuel leak case. Pursuant to Section 25297.15 (a), Alameda County Environmental Health (ACEH), the local agency, shall not consider cleanup or site closure proposals from the primary or active responsible party, issue a closure order, or make a determination that no further action is required with respect to a site upon which there has been an unauthorized release of hazardous substances from an underground storage tank subject to this order unless all current record owners of fee title to the site of the proposed action have been notified of the proposed action by the primary or active responsible party.

Therefore, we prepared the attached Notices of Responsibility which identify all legally named responsible parties for the case. ACEH will continue to review the case for potential case closure.
