**SUBJECT: BEACON STATION NO. 721, 44 LEWELLING BLVD., SAN LORENZO,
CALIFORNIA**

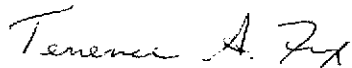

Dear Ms. Evans:

On March 14, 1991, a copy of the Work Plan for Continuing Subsurface Environmental Investigation for the above-referenced Ultramar facility was submitted to you for review. No response has been received by Ultramar Inc. from either the County or Regional Board. Consequently, Ultramar assumes that the scope of work meets with regulatory approval and plans to initiate work as soon as the necessary permits are acquired.

Please call if you have any questions or comments regarding this project.

Sincerely,

ULTRAMAR INC.

Dear Ms. Evans:

Enclosed is a copy of the Work Plan for Continuing Subsurface Environmental Investigation prepared by Groundwater Technology, Inc. In this work plan is a description of the proposed additional assessment as well as the removal of free product from monitoring wells as an interim remedial action.

Please call if you have any questions regarding the information included in this report.

Sincerely,

ULTRAMAR INC.
