Roger,

Another attempt was performed at contacting the resident of the properties identified as potential having wells- to no avail. The residents and property owners of these properties have been included in the mailing list for public notification. The mailing list and the public notification sheet have been created and will be sent out soon.

Regards,  
Keith Nowell

Hi Keith,

Is this site slated for closure by Alameda County? I see that attempts have been made to contact irrigation well owners – and that it is planned (according to the LTCP Checklist) that they will be contacted once more as part of Public Notice prior to closure. Seems like a reasonable approach. Is Alameda County proceeding with Public Notice as described? (If so then I can set aside my planned Review Summary Report).

Thanks,  
Roger
