Return Paul King's call about the review of the site. I have reviewed the site against the LTCP and it does not pass. I have a draft letter but a complete and thorough review of the site will be performed and a letter will be sent out. Paul asks if I will get the letter out now and I say it will not be out in June. I say I will get a letter out identifying all things that do not meet the LTCP by the end of July.
Paul said he will start working on a work plan as soon as it is received.
