Hello Lia,

It is difficult for me to provide an accurate estimate as I am no longer in the LOP program, but I would anticipate at least a few months until your case is reviewed for closure.

My current role in the LOP program is to ensure that high risk cases that require immediate attention are dealt with until a new case manager is hired. At this time, I am not aware if the vacancy has been filled as I am not privy to that sort of information. You may contact the Division Chief, Donna Drogos at donna.drogos@acgov.org or (510) 567-6721 for additional information regarding your case.

Sincerely,

Hi Paresh,
I haven't heard back from you since my latest email. Forgive me for pestering, but I just want to find out where we are with respect to case closure. Do you know if it has been sent to the State yet?

Thanks again,

Lia

Hello Paresh,
I'm just checking in again to see if there is any further news regarding the closure review. Please let me know if there is anything further that I can provide to assist in the review process.

Thanks for your time!

Lia

Hello Lia,

My understanding is that quarter reporting (i.e. quarterly status reports) may be a statutory requirement. However, since the case is being evaluated for closure, a semi-annual status report is sufficient.

Thank you Paresh. I will send a field tech out to the site periodically to check the wells' integrity. On that note, I presume that we will not need to submit status reports? Or perhaps a status report only in the third quarter reporting a well check?

Subject: Request to discontinue GW monitoring - RO 000511 3255 Mecartney Road, Alameda, BP 11270

Hello Paresh,

We are currently scheduling our third quarter sampling events and wanted to find out if I may discontinue monitoring while the site is being reviewed for closure. Please let me know if you feel this is reasonable, and if we may have your permission to do so.

Thank you,

Lia
