Hi Keith,

Bill Coset is the project geologist since Sarah just took over Dave Conley's position as PG. Their number is (707) 838 -3027.

Bill Coset called me late this afternoon and he stated that they do not have a copy of the vapor survey workplan that you mentioned. He checked with Geotracker and did not find the document either.

He also mentioned that the Preferential pathway study addressed the vapor survey but I told him that we will discuss what to do as soon as we get your letter.

I am still working for Pacific Coast Companies as a consultant after my retirement handling all the on-going cleanup projects for the subsidiaries one of the subsidiaries is Pacific Supply, LLC. I am still the one handling the UST's and RR.

Thank you,

Normita

Normita, please provide a phone number for Ms. Sara Lockwood and clarify if you are with Pacific Coast Companies Inc., or if your represent them as a REM.

Thanks!

Keith Nowell

Hello Keith,

Pursuant to our conversation this morning, here is my mailing address that I sent to Paresh and Mr. Huang many years ago.

Normita G. Callison  
Pacific Coast Companies Inc.  
10600 White Rock Road  
Rancho Cordova, CA 95670-6032

The old building we occupied back then in North Highlands has not been used since 2001.

Dave Conley from Brunsing Associates retired last year and you can send the correspondence to Ms. Sara Lockwood, Project Geologist and William Coset, Project Geologist at the address below;

Brunsing Associates  
5468 Skylane Blvd., Suite 201  
Santa Rosa, CA 95403.

I spoke with Sarah after we talked and asked her to check the Vapor Survey Workplan that you mailed to us in May 2012 and she cannot locate the copy from their file.

Could you please email it back to us. Sorry for the miss communications.

*Thank you,*

Normita
