Duration: 0 hours

Ben Henningberg, SWRCB

risk assessment not done
verification monitoring showed system not effective

soil vapor - if risk then addtl work

Kevin, only work was soil gas

considering topography & existing land use
currently no bldg onsite, demolished recently
is site paved? unknown
what is future use, residential? unknown
he said consultant mentioned to him thta bldg is gone

install treatment system, consultant proposed
Then Ben overturned their plan, is Ben giving directives on the site?
He was not trying to so this, his recc to consultant based on informal briefing.
If residential now makes sense to cleanup

He will talk to Kevin & see what his take is

blgds removed 3 weeks ago
