Subject: Anton Redevelopment (Mike Roberts; RO548) Conference Call Followup

Kyle, et al,

To briefly summarize the conference call deliverables, prior to implementation of Interim Remedial Actions, ACDEH requested the submittal following items:

- Copy of the BAAQMD permit
- Schedule / Gant Chart for the following submittals at a minimum: preferential pathway / utility line review, HHRA, draft CAP, draft Fact Sheet, Public Notification period, monthly monitoring, etc.

ACDEH approved the HHRA work plan without comment, but may provide comments as it is implemented.

Upon receipt of the BAAQMD permit copy, ACDEH will also request details of the interim remediation system: system design and monitoring program for the site as it moves through the CAP process.

Should you have questions, please let me know.
