5829 Adeline St Oakland CA 94608

Left message to Keith Rutledge (707)
whether the approved work plan (11/93)
had been implemented; no reports submitted
for site. - LOC (\$20,000)

11/13/93

STID 4253

5829 Adeline St. Oakland CA 94608

Reviewed WP (PSA) dated 11/13/93

- Problem is NW

PTW 10-15 ft bgs

120 cubic yards excavated for 2 tanks pit
16 cu yds excavated for 1 tank pit

2/1/94

Talked to Tom Cundy w/ Subsurface
Consultants re: letter 11/13/93.

asked by Keith Kuthledge to submit a
proposal

- 1) The one well should be
tied in w/ other MWs in the area
at referred to a common bench
mark.
- 2) If soil samples for borings are
ND in the field - should be
analyzed by a state certified lab.

1/4/93

STID 4253

Talked to Don Mc Edwards of
Irene Tech Consultants in Santa Rosa
re: PSA + closure report submittal.
advised to research RWQCB form (no change)
e.g. we'll compare list if ACHP
have additional sites of concern for
more information.

PSA + closure report will be submitted
or incorporated into one report. e will meet
the deadline.
