Mr. Zaccor called in response to a letter that Alameda County sent them. The letter stated that Alameda County should have been notified of the removal of two USTs, one 600-gallon diesel tank and one 1,500-gallon bunker oil tank, from the site. Mr. Zaccor stated that he did notify Scott Sany about the removal of the 600-gallon diesel tank, which he called a heating oil tank at the time, and Scott Sany told him that it was exempt. However, when Mr. Zaccor ran across the 1,500-gallon bunker oil tank, during the removal of the 600-gallon tank, he didn't bother notifying the County about it because he automatically assumed that it was also exempt.
