RE: WELL SEARCH
FORMER TEXACO SERVICE STATION
424 MARTIN LUTHER KING JR. WAY
OAKLAND, CALIFORNIA

Dear Mr. Robles:

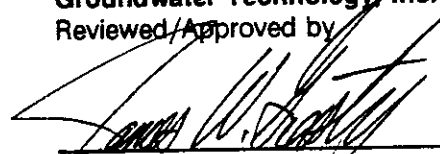

This letter is submitted by Groundwater Technology, Inc to present the results of a well search in the vicinity of the former Texaco service station located at 424 Martin Luther King Jr. Way in Oakland, California (Figure 1). A well search at the California Department of Water Resources was conducted by Ms. Gayle Crable during the week of May 17, 1993. Monitoring, cathodic protection, test, and unknown or other wells were located within a one-mile radius of the site. Figure 1 presents the well locations within a ½-mile and one-mile radius for comparison. Well research documentation is presented in Attachment I.

Please contact Groundwater Technology's West Sacramento office if you have any comments or require additional information.

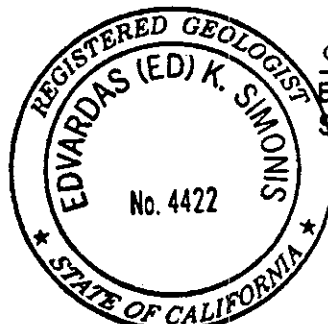

Sincerely,
Groundwater Technology, Inc.
