

Polvorosa  
Doolittle @ Polvorosa  
San Leandro

MEMO to file:

9/23/97

I spoke today w/ Tim Rogers (Nova Env.) regarding the project he is working on ~~at the~~ north of the Polvorosa site. He said he emplaced 6 borings this last Sunday, one of which was impacted by apparent HCs, directly north of the former fuel UST complex @ the Polvorosa site.

I requested a copy of the report when completed.

1/26/98

I called today, speaking to Tim Rogers (Nova). I reminded him about the need for the Nova report. He said he'd check (again) w/ his client.
