Spoke to Tom Sullivan ⁴⁷⁵⁻⁰⁷⁵⁵ of Rouse and Ass.,
property owner of Colvocoza Business Park. Sullivan
has taken the place of Robert Malin.
Sullivan said ~~have~~ ^{they} have installed the
groundwater extraction system identified in
the 11-1-88 Levine-Fricke report, and have
been extracting out material for the past
two years. He would like to know when
they can shut-down the system and get
a sign off. I informed him I have not
rec'd any report from Levine-Fricke since
I gave them the approval to install
in septer in 1/89. He will have
them send me copies of all their data,
and recommendation.
