

P. Worosa

9-22-94

MEMO to file

Adam Klein (Levine-Fricke) called today. He said they are still trying to gain access to the (reportedly) sole off-site well, LF-15. He asked whether, rather than wait any longer, they could begin getting sampling of the on-site wells. I agreed.

I reminded him of the background documents we were still requesting (as memorialized in the 5-20-94 ACDEH corresp. and 7-21-94 FAX).
