RE: UNDERGROUND STORAGE TANK CLOSURES, 100 HALCYON DRIVE, SAN  
LEANDRO

Dear Mr. Huda:

This office is currently reviewing the underground storage tank (UST) leak file for the referenced site. The information presently available in this file appears incomplete, particularly where concerning the narrative and supporting documents (e.g., lab reports, etc.) associated with the 1990 UST closures, and any subsequent ground water monitoring.

Please submit all documents relating to the noted activities at your earliest convenience, preferably within the next 30 days. You may contact me at 510/271-4530 should you have any questions.

Sincerely,

  
Scott O. Seery, CHMM  
Senior Hazardous Materials Specialist

re: Removal of Underground Tank

Dear Mr. Huda

We have been informed that on or about October 23, 1990 an underground storage tank was removed from your facility at 100 Halcyon Drive, San Leandro, and that soil and ground water near the tank may have been contaminated by diesel fuel or other petroleum products leaking from this tank.

Our agency is responsible for carrying out the mandates of California laws and regulations pertaining to protection of soil and groundwater. Please provide us with the following information:

A drawing or map of your facility showing the former location of the tank.

Documentation of proper disposal of the tank, its contents (if any), and of any soil shipped off site.

Records of soil samples and ground water samples taken in conjunction with removal of the tank. (Locations of soil and ground water samples should be marked the drawing or map of your facility.)

The company name, address and phone number of all contractors involved in the tank removal.

If our agency determines that your site could have experienced an unauthorized release of petroleum hydrocarbons impacting ground water, we will require you to submit a proposal for determining the vertical and horizontal extent of soil and groundwater contamination, and a proposal for soil and groundwater remediation. This is a formal request for documentation pursuant to California Water Code, section 13267 (b).

General Foods,  
November 6, 1990  
page 2

We also require a "deposit-refund" of \$360.00, paid by check made out to Alameda County, to cover our costs while reviewing the documents you send us and overseeing site remediation, if that should be necessary. Any amount remaining when remediation is complete will be returned to you. Our cost is \$60.00/hour.

Please contact me at 271-4320 if you have any questions.

Sincerely,

William F. Faulhaber
