Subject: Formal Notification of Intent to Proceed with Proposed Work Described in the Addendum One to Work Plan for Subsurface Investigations and Remediation at ARCO Station 276, 10600 MacArthur Boulevard, Oakland, California.

Dear Mr. Smith:

This letter is submitted by RESNA on behalf of ARCO Products Company to inform you of our intent to proceed with the proposed work described in the Addendum One to Work Plan for Subsurface Investigations and Remediation at the subject site (RESNA, June 27, 1991). We have been in contact with you on several occasions, including a site meeting concerning proposed work at the subject site. Several letters have also been written between ARCO and your agency and between ARCO's consultants and your agency concerning proposed work at the site, however, to date, you have not specifically given approval to proceed with the proposed installation of onsite vapor extraction wells for connection to the existing vapor extraction system at the site or listed any specific changes you would like to see made in our proposed work. The last written correspondence from you was a letter dated October 7, 1991 in which you requested clarification on several items concerning the proposed work. A formal letter of response addressing your concerns was sent to you on November 5, 1991.

To date, we have had no written or verbal response from your agency to our letter of November 5, 1991. Therefore, proceeding under the requirements of Title 23, Article 11, Chapter 16, Sections 2722 (b)(5) and 2726 (c); ARCO intends to implement the Work Plan on February 1, 1992. This letter is a formal notification of ARCO's intent under 2726 (c)(1).

Formal Letter of Intent to Implement Work Plan  
ARCO Station 276, Oakland, California

January 29, 1992

---

If you have any questions or comments, please call us at (408) 264-7723 or Mr. Chuck Carmel at (415) 571-2469.

Sincerely,  
RESNA

Joel Coffman  
Project Geologist
