I spoke with Kare' Peterman of Texaco : mining  
and existing today. She indicated that the  
proposed off-site wells had not yet been installed.  
However, she further stated that installation  
is slated to occur Jan. 8-9, 1992.

Jan Prasil of Groundwater Technology called today, and he also authored a letter dated October 26 which indicated GTI would be handling site assessment from this point forward. He intends to submit said workplan within 2 weeks with an additional \$ 500 to defer future costs of project oversight, at my request. He also requested that a well be allowed to be installed before asphalt is applied to the site next week. This request I denied w/o having reviewed the workplan first.
