Subject: Quarterly Groundwater Monitoring Schedule for 4801 Tidewater Avenue.

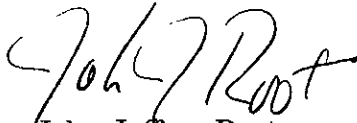

Re: Your letter dated April 29, 1993.

Dear Mr. Chan:

TENERA Environmental would like to provide you with a schedule for quarterly groundwater monitoring of the well recently installed at White Brothers at 4801 Tidewater Avenue on April 2, 1993. We have contracted with Trace Analysis Laboratory of Hayward to collect the samples and analyze them for TPHg, TPHd, TPHmo and BTEX. Sampling dates will be in July and October of this year and January of 1993. We consider the samples taken in April to be the first of the year's sampling.

We will provide you with the results of the analyses and will have all correspondence to you signed by TENERA's lead professional engineer who is overseeing this investigation. If you have any questions or comments regarding this submittal, please call me at (510) 845-5200.

Sincerely,

John Jeffrey Root
Senior Project Manager
