FACSIMILE COVER SHEET

TO: Pam Evans

COMPANY: Alameda Co. Health Agency

FROM: Clyde Galantine

DATE: [REDACTED]

RE: Chevron Site #5630 997 Grant Ave, San Lorenzo

COMMENTS: We are now aerating and are preparing to
backfill excavation with stockpiled soils <10 ppm
TPH-Gasoline

2 pages including cover.

Called Jeff Monroe 3/26/91 re: ND levels. Informed him that RWQCB policy for reuse of stockpiled soils onsite hinges on finding W.D. levels. It's inappropriate to use 10ppm as a cut off because their lab's W.D. level is 1 ppm.

IF THERE ARE ANY PROBLEMS WITH THIS TRANSMISSION, PLEASE CALL (415) 783-7500
