Re: Amendment to Case Closure
Former Chevron Service Station #9-5630
997 Grant Avenue, San Lorenzo

Dear Ms. Shin:

Thank you for your letter of December 13, 1993, received in this office on December 16, 1993, requesting supplemental information to the Petition for Case Closure Report submitted to your office on December 8, 1993. As requested, enclosed are copies of the non-hazardous special waste manifests documenting the disposal of the 200 cubic yards of soils to Browning Ferris Industries. Also enclosed is a copy of the invoice for the disposal of the underground storage tanks to Erickson, Inc.

We trust that this additional information will assist in completion of your review and would appreciate your concurrence for site closure. No further work is planned for this site. If you have any questions or comments, please do not hesitate to contact me at (510) 842- 9581. Again, Chevron appreciates all your efforts in bringing this site to closure.

Sincerely,
CHEVRON U.S.A. PRODUCTS COMPANY

Nancy Vukelich
Site Assessment and Remediation Engineer

No 5250 - 73583
Chevron

CERTIFICATE
Certified Services Company
255 Parr Boulevard
Richmond, California 94801

Day or Night
Telephone
(415) 235-1393

For: Erickson, Inc. Tank No.(s.) 5250 Location: Richmond Date: 12-28-90 Time: 8:00 a.m.
Test Method: Visual Gastech/1314 SMPN Last Product: Leaded Gas

This is to certify that I have personally determined that the tank(s) in the following list are in accordance with the American Petroleum Institute and have found the condition of each to be in accordance with its assigned designation. This certificate is based

on conditions existing at the time the inspection herein set forth was completed and is issued subject to compliance with all qualifications and instructions.

Tank(s)	Condition
1- <u>10,000</u> Gal. Tank	Safe For Fire Oxy 20.9% LEL-Less than 0.1%

Remarks: _____

In the event of any physical or atmospheric changes affecting the gas-free condition of the above tanks, or if in any doubt immediately stop all hot work and contact the

undersigned. This permit is valid for 24 hours if no physical or atmospheric changes occur.

Standard Safety Designation:

Safe for Men: Means that in the compartment or space so designated (a) The oxygen content of the atmosphere is at least 19.5 percent by volume; and that (b) Toxic materials in the atmosphere are within permissible concentrations; and (c) In the judgment of the Inspector, the residues are not capable of producing toxic materials under existing atmospheric conditions while maintained as directed on the Inspector's certificate.

Safe for Fire: Means that in the compartment so designated (a) The concentration of flammable materials in the atmosphere is below 10 percent of the lower explosive limit; and that (b) In the judgment of the Inspector, the residues are not capable of producing a higher concentration than permitted under existing atmospheric conditions in the presence of fire and while maintained as directed on the Inspector's certificate, and further, (c) All adjacent spaces have either been cleaned sufficiently to prevent the spread of fire, are satisfactorily inerted, or in the case of fuel tanks, have been treated as deemed necessary by the Inspector.

The undersigned representative acknowledges receipt of this certificate and understands the conditions and limitations under which it was issued.
