Preliminary Assessment _____
Remedial Action _____
Post Remedial Action Monitoring _____
Enforcement Action _____

There is currently a pump and treat of a vapor extraction system operating quite effectively at this site.

In July, Jim Bowers of Subsurface wrote a letter requesting to treat a DCA problem with the existing system. Eddy So had faxed me some comments which were to be incorporated in correspondence regarding the addition of halocarbons to the existing system.

Unfortunately I never got the chance to respond to J. Bowers in a letter. In a phone conversation w/ Jim Bowers there was some question because levels of DCA had dropped significantly whether the plan was to still treat for halocarbons or not. There needs to be a follow up phone call to Jim Bowers / letter.
