Mr. George Haywood  
132 Ivy Drive  
Orinda, California 94563.

August 17, 1993  
File 2198.17 (UST)  
RB File No.: 01-0749  
STID 3735

Subject: UST case closure for 834 Blossom Way, Hayward, California.

Dear Mr. Haywood:

The Alameda County Department of Environmental Health has submitted a report which summarizes the investigation and cleanup of hydrocarbon pollution resulting from leaks associated with a 500 gallon diesel, a 500 gallon gasoline and a 1000 gallon gasoline Underground Storage Tank at the above mentioned site, and recommends that the case be closed. Regional Board staff have reviewed the report and concur with the recommendation. Therefore, based on the available information for the above site, no further investigation or cleanup of pollution associated with these Tanks is required. Further work may be required if conditions change or a water quality threat is discovered at the site.

Please contact Sumadhu Arigala at (510)-286-0434, if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Ritchie", is written over a horizontal line.

Steven R. Ritchie,  
Executive Officer.
