*vapor barrier could be costly.
consider SV sampling at
3' bags at 4 location -
E, W, N, + S of former excavation
using pump & canisters,
unless there are results of
SG ~~BOX~~ from May 1994 study.*

Re: Transmittal of Site Plan Showing the Locations of the Former Excavation,
Groundwater Monitoring Well MW-1R and Planned Building at 6085 Scarlett Court,
Dublin, California.

Dear Ms. Chu:

Enclosed please find a site plan of the proposed motorcycle dealership at the 6085 Scarlett Court site in Dublin. The site plan was prepared for Arlen Ness Enterprises by Herbert Samonsky, Architects, of Emeryville. EnviroNet Consulting modified the site plan to show the location of the former soil excavation and groundwater monitoring well MW-1R.

I have been in contact with Mr. Burt Hamrol of CSI/Customer Service General Contracting Inc. regarding your concerns about a vapor barrier for the proposed building. Mr. Hamrol indicated that he would be in contact with me and the architects to discuss the vapor barrier design. I will be in contact with you during the vapor barrier design finalization.

We trust this provides the information you require. If you have any questions, please call (707) 546-9461.

Sincerely,
EnviroNet Consulting

Robert L. Nelson
