Total number of pages including cover sheet 2

-NOTES- Primary Zone 7 pumping well is "Stoneridge";
the "Mocho" wells are used during peak demand.
Also, DSRSD will be reactivating the vintage "Army"
wells. These have screens in a shallower
zone (120-130' upper perf).

FACSIMILE COVER SHEET

TO: Jim Chappell, ERI 415/382-1856 FAX
FROM: Scott Seery 510/567-6783
DATE: 6-13-00 / 6-16-00

Total number of pages including cover sheet 2

-NOTES- Jim - I met with Mat Katen (Zone 7)
yesterday, and reached the following conclusions:
1) move proposed well MW-5 down next to
MW-2, south of dispenser islands (see map)
2) both MW-5 and MW-6 should be
completed in the "deeper" shallow zone as are
wells MW-3 and MW-4.
