Nathan,

Please use this email as approval of your request for an extension due to delays with offsite access. I've used March 2, 2012 as a place holder date, depending on your actual drill date. Keep me posted.

Subject: RE: Extension Request for RO 2435 9-3600 2200 Telegraph Avenue, Oakland

Mark,

Conestoga-Rovers and Associates (CRA) on behalf of Chevron Environmental Management Company (Chevron) would like to requested an extension of the Soil and Groundwater Investigation Report that had an extension due date of December 2, 2011 and was originally due on Juner 24, 2011. The reason for the original extension request was because Chevron was working on obtaining an agreement with the adjacent property owner that would allow access to conduct the off-site investigation. The adjacent property owner and Chevron have recently reached an agreement that allows CRA to conduct the off-site investigation. CRA is current scheduling the field activities.

An extension date for the submittal of the Soil and Groundwater Investigation Report is requested to be due 60 days after start of drilling activities. Once the drillers have been scheduled, CRA will provide an update with the date when drilling activities will start and the date that the report will be submitted (60 days from the start of drilling activities).

Thanks,

Nathan Lee, P.G.

Mark.

Conestoga-Rovers and Associates on behalf of Chevron Environmental Management Company (Chevron) would like to request for an extension of the Soil and Groundwater Investigation Report that is due on September 23, 2011. The reason for the extension request is that Chevron is working on obtaining an agreement with the adjacent property owner that will allow access to conduct the off-site investigation. The adjacent property owner and Chevron have exchanged draft access agreements and are currently negotiating the final agreement.

An extension date of **December 2, 2011** for the submittal of the Soil and Groundwater Investigation Report is requested. The report submittal is depended on an access agreement with the adjacent property owner. Though Chevron is close to obtaining an access agreement, the actually date that the agreement will be finalized is unknown. This may affect the submittal date of the Soil and Groundwater Investigation Report.

Thanks,

Nathan Lee, P.G.

Nathan and David,

Ninety days seems a bit long; however, property access can sometimes be difficult. Please use this email as ACEH approval of this request. If initial conversations are not fruitful, please also advise if it would be appropriate for ACEH to send the standard offsite property access request letter.

Conestoga-Rovers and Associates on behalf of Chevron Environmental Management Company (Chevron) would like to request for an extension for the Soil and Groundwater Investigation Report that is due on June 24, 2011. The reason for the extension request is that Chevron is working on obtaining an agreement with the adjacent property owner that will allow access to conduct the off-site investigation.

An extension date of **September 23, 2011** for the submittal of the Soil and Groundwater Investigation Report is requested. The report submittal is depended on an access agreement with the adjacent property owner. Though Chevron is actively working on obtaining access, the actually date that the agreement will be finalized is unknown. This may affect the submittal date of the Soil and Groundwater Investigation Report.

Thanks,
