Transfers Delayed

Jerry,

Per our telephone conversation this morning, CRA is working with Hamid at Geotracker to transfer files which had previously been uploaded with the wrong global ID number. Hamid has told us that the previously-uploaded files can be easily transferred to the correct global ID, but has had problems doing so because Geotracker is currently debugging a new software package. ACEH has given us a deadline of August 15, 2008 to complete the transfers, but I am uncertain if the files will be transferred by then and would like to request an extension of the transfer deadline.

Please let me know if you need any files or other information in the interim. Thank you.

Regards,

**Peter Schaefer, CEG, CHG**
