Received call from Katherine Brandt of ARCADIS re RO450, former Unocal at 1629 Webster in Alameda, and for RO2444, Union Oil at 10151 International Blvd Oakland.

1. RO450- Ms Brandt wanted clarification with regard to the domestic well identified in our Directive letter dated 1/07/2014, which I did. When asked what we wanted I indicated that someone need to knock on the door and establish the existence and status of the well.
2. RO2444- Ms Brandt indicated that she requested an extension to the SWI due this Friday. I mentioned this was the second extension request for the work but said the extension would be granted.
