Subject: Fuel Leak Case No. RO0002449 and Geotracker Global ID T06019713704, Cruise America, 796 66th Avenue, Oakland, CA 94621 – Groundwater Monitoring Requirements

Dear Mr. Kauffman:

The purpose of this correspondence is to inform you of changes to groundwater monitoring requirements for all fuel leak cases in California. The California State Water Resources Control Board (State Water Board) has approved Resolution No. 2009-0042 (*Actions to Improve Administration of the UST Cleanup Fund and UST Cleanup Program*). Resolution No. 2009-0042 states that, "*Regional Water Board and LOP agencies shall reduce quarterly groundwater monitoring requirements to semiannual or less frequent monitoring at all site unless site-specific needs warrant otherwise and shall notify all responsible parties of the new requirements no later than August 1, 2009. If more than semiannual monitoring is required for a case, the responsible party and State Water Board shall be notified of the rationale and the notice shall be posted on Geotracker.*"

This case is currently under review for possible case closure. No additional groundwater monitoring is requested at this time. Therefore, no actions are required for this site in response to Resolution No. 2009-0042.

If you have any questions, please call me at 510-567-6791 or send me an electronic mail message at jerry.wickham@acgov.org.

Sincerely,

A handwritten signature in black ink that reads "Jerry Wickham".

Jerry Wickham, California PG 3766, CEG 1177, and CHG 297
Senior Hazardous Materials Specialist
