Don was CW, who is contact?

Long call with RP

Site not assigned, will have review pending approx 2-3 months, CW currently committed with other sites, explain oversight caseload.

He wants higher priority

Not selling site, not developing site

offered potential of work as dep/ref on OT if needs expedited review, no followup

He objects to establishing priorities for his case ie., development, etc.

He wants site reviewed now, his boss will not accept less than immediate review,

He is unsatisfied, will sue ACEH

I can speak to owner for him & explain oversight time needed he declines to identify owner.

He will not accept anything other than immediate review.
