Brain,

Please have Chevron make the request for a schedule extension for this project. The schedule extension request should be for a definite time period rather than open ended.

Regards,

Subject: 2301 Blanding Avenue, Alameda (Former Signal Oil Bulk Plant)

Hello Jerry-

I wanted to provide an update on the assessment for this site. After a couple of months of access agreement preparation by CRA and Chevron (the former Signal Oil bulk plant naming legalities held us up), they have been submitted to the property owners. The owners sound cooperative and we will actively pursue getting the access agreements signed before we begin assessment work at the site. Although we'll be unable to meet the May 29 assessment report due date, we will notify you once the access agreements are 100% completed and set a date from there. If you have any questions about this site or wish to discuss further, please give me a call. Thank you.

Sincerely,

Brian P. Carey, PG
