Mr. Wickham-

I just wanted to update you on the status of the second indoor air sampling event for the former Signal Oil Marine Facility. The report is currently in senior review and will go out for client review early next week. Once I get comments back from Chevron I will get the report uploaded to the ACEH website. The sub-slab and indoor air results were similar to the results observed during the previous event. Please let me know if you have any questions.

Thanks,

Brian Silva
