Subject: RE: SLIC Case RO0002468 2101 Williams Street Site Conceptual Model -- request for deadline extension

Ken,
Please use this email to document ACEH concurrence with an extension for the Site Conceptual Model (and Data Gap Work Plan), and the groundwater monitoring report. I've changed the due dates on Geotracker to September 13th and October 4, 2013, respectively.

Hope the back gets better!

Subject: SLIC Case RO0002468 2101 Williams Street Site Conceptual Model -- request for deadline extension

Hi Mark,

I injured my back early last week and the recovery has been much slower than expected. Consequently, my schedule has been a mess and I am not quite finished with the Site Conceptual Model that is due tomorrow (August 30). Would it be possible to get a five-working-day extension on it?

Similarly, the groundwater sampling report due on September 20th may need to be delayed one week, although I'm still trying to find a way to salvage that deadline with my backlog.

Please let me know if such extensions are possible.

Ken Anton
