Jerry,

We have been encountering delays in obtaining an access agreement from the current property owners to conduct the subsurface investigation at the former Grand Auto (current Kragen/O'Reilly Auto) at 4240 International Blvd. in Oakland, ACEH case # RO0002483, Geotracker Global ID # T06019705075. Some legal issues concerning the access agreement still need to be worked out. You had extended the due date for the subsurface investigation report to December 7, 2011. We would like to request an additional extension of at least 30 days in order for the access agreement to be finalized, and for the drilling permitting (which needs to be signed by the property owners).

Please call me if you have any questions,

Thanks,

Len
