I will call and leave a complaining message to the attorney, but that's all I'll do at this point. He is supposed to install 3 monitoring wells by Jan 15, 2003 and get \$20,000 off his fines currently due. If that's not enough incentive, I don't know what is....Keep me posted, please.

Susan.

Hi Susan,

Groundwater monitoring well installation was suppose to take place this Wednesday, Oct 23, but the consultant called to say David cannot clear the areas needed for the wells. He said the next tentative date for field work is December 16, 2002. I don't know why the delay. It wouldn't take that much time or effort to clear space for a drill rig, would it????
